EDUCATION

B.Sc. in Computer Engineering

Babol Noshirvani University of Technology, Babol, Iran

2018 - 2022

- **Thesis:** ESVR-NET: Ensemble Support Vector Regression Meta-feature Space Generator based on Transferred Deep Learning of Medical Images - Thesis Grade: 20/20
- **Supervisor:** Dr. Hesam Omranpour

Diplomas in Mathematics and Physics

National Organization for Development of Exceptional Talents, Babol, Iran

2014 - 2018

- **CGPA:** 19.87/20 (4/4)

RESEARCH INTERESTS

- Machine Learning
- Deep Learning
- Computer Vision
- Brain-Computer Interface

PUBLICATIONS

- Taheri, M., & Omranpour, H. (2024). Breast cancer prediction by ensemble meta-feature space generator based on deep neural network. Biomedical Signal Processing and Control, 87, 105382.
<https://doi.org/10.1016/j.bspc.2023.105382> **2023**
- Omranpour, H., Mohammadi Ledari, Z., & Taheri, M. (2023). Presentation of encryption method for RGB images based on an evolutionary algorithm using chaos functions and hash tables. Multimedia Tools and Applications, 82(6), 9343-9360.
<https://doi.org/10.1007/s11042-022-13734-x> **2022**

ACADEMIC EXPERIENCE

Research Assistant, Computational Intelligence Laboratory

2021 - present

- Devised an innovative algorithm for the classification of Covid-19 through X-ray images and breast cancer via ultrasound scans, resulting in accuracy enhancements of 3.6% and 4.8% respectively, in comparison to existing methodologies
- Mentored junior researchers, providing guidance on deep learning methodologies, and Python programming
- Translated technical research paper on image encryption from Persian to English, maintaining content integrity and ensuring precise representation of intricate cryptographic concepts, published in Multimedia Tools and Applications Journal

Teaching Assistant, Babol Noshirvani University of Technology, Babol, Iran

Feb'20 - Jun'20

- **Course:** Data Structures
- **Supervisor:** Dr. Hesam Omranpour

WORK EXPERIENCE

Python Developer , Roshan (AI Company), Tehran, Iran	2022 - present
<ul style="list-style-type: none">• Created and executed a text preprocessing algorithm, boosting AI text classification model performance by 20%• Designed and implemented RESTful APIs to facilitate seamless communication between frontend interfaces and AI models, enhancing user experience.• Optimized database queries and schema designs to enhance data retrieval speeds, resulting in a 15% decrease in API response times• Implemented continuous integration and continuous deployment (CI/CD) pipelines, automating testing, building, and deployment of AI backend services• Implemented authentication and authorization mechanisms using technologies like JWT tokens and Djoser library to maintain secure user access to AI applications• Collaborated in a cross-functional team to architect and develop backend solutions for AI-powered products, ensuring scalability and efficient data processing	

PROJECTS

<ul style="list-style-type: none">• EEG signals classification of imagined speech• Baaz project: a Persian search engine based on Elasticsearch. My Role: backend developer• Kashf project: a text and image pattern recognition tool. My Role: backend developer• Targar project: proficient translator skilled in translating across diverse languages. My Role: backend developer	
---	--

SKILLS

Programming	Python, MATLAB, C++, Java
Tools	Tensorflow, Scikit-learn, Keras, OpenCV, Pandas, PostgreSQL, Git, Django, Docker, Celery, REST APIs, TeX/LaTeX
Languages	IELTS: Overall: 7.5, R:8, L:8, S:7, W:6

RELATED COURSES

Courses	Scores (out of 100)
Data Mining	91.5
Advanced Algorithms	88
Artificial Intelligence and Expert Systems	88
Design of Algorithms	83
Data Structures	80.5
Python	100
Deep learning	96

HONORS AND AWARDS

- My final project ranked first among bachelor projects across all departments at Babol Noshirvani University of Technology.
- Obtaining a research grant (No P/M/1110) resulted in the publication of my most recent paper in the Biomedical Signal Processing and Control journal.
- Ranked within the top 10% among more than 10,000 participants in the Iranian Computer Olympiad.
- Ranked within the top 10% among more than 10,000 participants in the Iranian Physics Olympiad.
